SUMMIT PROGRAM

03.05.2026

TIME

COURSE

8:30 AM - 9:30 AM

FIRED EQUIPMENT, FCC & ROTATING EQUIPMENT ACTUATION OPTIMIZATIONMarco Solia – North American Sales Manager, **Rexa**[®]**HEAT TRACE BEST PRACTICES FOR DESIGN, INSTALLATION & OPTIMIZATION**Tim O'Neill – Project Engineer, **Allied Instrumentation****PUMP SIZING & SELECTION FUNDAMENTALS***Best practices for application based on design types/application demands.*Andrew Mills, Vice President of Engineering, **Conhagen**
Rob Jordan - Vice President of Sales, **Hayes Pump**

9:30 AM - 10:00 AM

BREAK

10:00 AM - 11:00 AM

SIS VALVE TESTING CAPABILITIES*Maintaining SIL integrity; field testing of valve operation, functionality, response times and predictive maintenance.*James Davis – President, **SofTek Engineering**[®]
Bob Campbell – Field Service Manager, **Allied Valve****FLOWMETERS — LIQUID, GAS, STEAM FLOW WITH WETTED AND/OR CLAMP-ON METERS***Measurement fundamentals utilizing wetted and clamp on flowmeters.*

- High temp & heavy crude applications
- Flare applications

Amy Beaudry – Technical Sales Leader, **Panametrics**
Lorenzo Nirchi – Regional Sales Manager, **Allied Instrumentation****STEAM TURBINES: COMMON INSPECTION & REPAIR FINDINGS**Andrew Mills, Vice President of Engineering, **Conhagen**

11:00 AM-11:30 AM

BREAK

11:30 AM-12:30 PM

WEDGEPLUG TRAINING CLASS*Demystifying wedge torque, causes behind startup failures and aftermarket upgrades to enhance reliability.*Mike Dunn – President, **J~S Machine and Valve**
Andrew Johnson – Director of Field Services, **J~S Machine and Valve****INSTRUMENT CALIBRATION PROGRAM FUNDAMENTALS**John Ferguson – General Manager, **Turnkey Calibration Services****MECHANICAL SEAL INSTALLATION BEST PRACTICES**Rob Jordan - Vice President of Sales, **Hayes Pump****CONTROL VALVE SIZING & SELECTION***Best practices for application based on design types/application demands.*Alex Vehige – Business Development Manager, **Allied Valve**
Larry Waugh – Business Development Manager, **Valve Sales Inc.,**

SUMMIT PROGRAM

03.05.2026

TIME

COURSE

12:30 PM-1:00 PM

BREAK

1:00 PM-2:00 PM

TURBINE BYPASS/STEAM LETDOWN CONTROL VALVE TRAINING*Desuperheating, attemperator & high pressure steam letdown application & design best practices.*Robbie Hirschsohn Sr.- Technical Sales Specialist North America, **Masoneilan****PROCESS ANALYZERS**

Trace moisture measurement

- Aluminum oxide
- TDLAS in natural gas
- Gas Analysis
- Oxygen sensing
- Gas purity including hydrogen
- Sample systems

Amy Beaudry – Technical Sales Leader, **Panametrics**Lorenzo Nirchi – Regional Sales Manager, **Allied Instrumentation****REVERSE ENGINEERING FOR ROTATING EQUIPMENT***Understanding the different types, technologies and comparisons.*Andrew Mills, Vice President of Engineering, **Conhagen****CONTROL VALVE DIAGNOSTICS TRAINING***Root cause failure analysis, troubleshooting performance issues, advanced tuning Utilized for maintenance planning & prioritizing repairs.*James Davis – President, **SofTek Engineering®**Michael Kelsey – Business Development Manager, **Millennium Power Services**

2:00 PM - 2:30 PM

BREAK

2:30 PM - 3:30 PM

PRESSURE SEAL LINE VALVE REPAIR*Explaining delamination, in line seat replacement, machining and repair best practices.*Mike Dunn – President, **J~S Machine and Valve**Andrew Johnson – Director of Field Services, **J~S Machine and Valve****FIXED GAS & FLAME DETECTION***Design considerations, calibration best practices.*Dan Fitzsimmons – Industrial Gas Detection & Safety Systems Specialist, **Allied Instrumentation****REVIEWING PUMP CURVES***Prioritizing maintenance and discussing PM schedules.*Andrew Mills, Vice President of Engineering, **Conhagen**
